Specialties in Interaction Design and UX Research

EXPERIENCE

XEROSEC LLC

Software Engineer | Jan 2024 - May 2024

- Designed, built, and released new front-end for a script sharing platform using NX monorepo and component library documented with Storybook
- Integrated authentication with Azure B2C
- Set up CI/CD pipelines with Github Actions

BILL.COM / DIVVY

Software Engineer | Oct 2022 - Dec 2023

- Built and released new budget tools including policy management and import functionality for budget groups
- Greatly improved test coverage and code readability
- Worked on migrating legacy Javascript monorepo to new federated Typescript repositories

WALMART GLOBAL TECH

Software Engineer | Nov 2016 - Sept 2022

- Created an admin UI to manage an internal notification platform integrated into business-facing mobile applications
- Applied UX practices in documentation and example projects for React Native, Android, and iOS SDKs
- Maintained the Apple code signing process for all internal iOS applications involving hundreds of certificates and profiles
- Applied CI/CD to streamline numerous support processes using Jenkins
- Worked with the AI & Machine Learning team on a React Native application to improve data entry
- Set up API secrets management workflows and updated SSL certificates
- Created API routes in NodeJS and Java Spring Boot backends
- Managed deployments to hybrid cloud infrastructure hosted on-prem and in Azure
